### IMPRINT TEMPLATE

Cotton-web belts are imprinted using a heat-transfer process. Vinyl-coated belt imprints are silkscreened. Select imprint colors using the Pantone Matching System (PMS). Imprints may use one, two or three colors. Exact color matching is limited due to the inherent properties of the belt material and the transfer/printing processes. Talk to your Gaitbelt.com representative about color proofing options. Call 888-449-BELT (2358) or send email to [gaitbelts@gaitbelt.com](mailto:gaitbelts@gaitbelt.com).
